National week of action | November 4 - 10

UNITE FOR OUR SECTOR

Community and disability workers are calling for better respect and recognition of the vital work of our sector.

Despite the complexity of our work, our **skills** and **experience** are **not recognised** in our Award.

It's time for change and we need everyone to stand with us.

We cannot provide high quality, reliable and effective community services without dedicated frontline workers.

ASU members have a plan to create **career pathways, job security and fair wages**. That's why we have called for a national week of action. We are inviting supportive employers, community members, and service users to join us and **demonstrate your support for community and disability services**.

**Respect our skills, value our experience.
Local services deserve better.**
